

Labmatrix® R12

A more intuitive, efficient, and insight-driven Labmatrix experience.

Labmatrix R12 brings meaningful enhancements designed to make every day work easier. With a modernized experience, streamlined workflows, stronger reporting, and expanded mobile capabilities, R12 helps customers work with greater ease and confidence across the platform.

User experience

A modernized interface across major modules, grid-based editing, and a customizable homepage help users work more efficiently while strengthening platform security.

Reporting and AI-enabled insights

Labmatrix Instant Insights supports natural language-based querying, while conditional formatting improves data visibility and decision-making.

Workflows and operational efficiency

A drag-and-drop workflow designer simplifies configuration. Integrated Contact Support and a revamped user manual streamline issue reporting and user support.

Mobile enablement

A mobile-responsive experience supports access across devices, while mobile scan capabilities help users track and store samples efficiently.

A more intuitive
and personalized
day-to-day
experience

Simpler workflow
configuration
and easier access
to support

More accessible
