

VISITOR'S GUIDE

Welcome to Tokyo, Japan

On behalf of Q² Solutions, thank you for your visit to Telecom Center. For your convenience, we have provided a variety of resources and information to make your visit a seamless and enjoyable experience.

We operate in Telecom Center Building. The facility covers an area of up to 815.74 square meters. We provide lab capabilities for comprehensive support of local and global studies. Our laboratory facility provides Chemistry, Special Chemistry, Hematology, Coagulation, Urinalysis, Immunology and Flow Cytometry. Our site also includes dedicated specimen management and storage facilities as well as project management and Investigator Site Support.
